

X5i

UNCOMPROMISING PRECISION FOR LONG RANGE HUNTING

PLEX-I+

- Simple reticle that focuses on the essential aspect - the main aiming point.
- Intuitive to use.
- Small target coverage.
- Only the central aiming point of the night reticle is illuminated, for accurate shots even in low light.
- Available for:
X5i 5-25x56 P 1/8 MOA

SUBTENSION DIMENSION

	A	B	C	D	E	F
MOA	0.07	0.17	0.10	4.0	2.0	2.0
cm/100m	0.2	0.5	0.3	12.0	6.0	6.0

As the reticle is located in the second image plane, the data only applies to the highest magnification.
